EDUCATION

Connecticut College, New London, CT

BA expected 2027

- **Major:** Computer Science | **Minor:** Art
- Dean's High Honors (all semesters)
- **Coursework:** Programming, Computer Vision, Graphics & Virtual Environments, Entertainment Software Design, Algorithms, Data Structures, Computer Organization, Emerging Technologies, 3D Modeling & Animation

Cumulative GPA 4.00

The Northwest School, Seattle, WA

Diploma awarded 2022

EXPERIENCE

Student Researcher, Autonomous Driving, Computer Science, Connecticut College *Jan 2026-present*

- Conducting independent research on safety-focused reinforcement learning for autonomous driving using multimodal perception. Designing parameterized rare-hazard scenarios in CARLA, training autonomous agents and evaluating their behavior in these scenarios.
- Workflow includes defining project goals and architecture, programming (Python), structuring analyses, and strategically leveraging AI-assisted development (Claude Code, ChatGPT).

Teaching Assistant, 3D Animation & Worldbuilding, Connecticut College

Jan 2026-present

- Providing instruction, mentorship and hands-on technical expertise to undergraduate students learning to use 3D tools including Maya and Unreal Engine.

Ammerman Center Scholar, Procedural World Generation, Connecticut College

2025

- Built a parameterized procedural world generation system in Unreal Engine that dynamically creates user-explorable environments in real time.

Gap Year Travel, Japan & Costa Rica

2023

Volunteer, The Nature Consortium (now Delridge Neighborhoods Development Association) *2010-2022*

- Helped restore Seattle's urban forests by removing invasive species and planting native trees.

TECHNICAL SKILLS

Programming: Python, C++, C, C#, SQL, Java, Lua, full stack (HTML, JavaScript, CSS), MATLAB

Technical Tools: Git, GitHub, Azure VMs, Linux (Ubuntu), Docker Compose, Node.js, Express.js

Creative & Visualization Tools: Adobe Creative Cloud, Maya, Audacity, Unity, Unreal Engine, VR

HONORS & AWARDS

Sophomore & Junior Computer Science Awards, Connecticut College

2025 & 2026

- Selected twice by Dean of the College for excellence in computer science

Ammerman Center for Arts & Technology Scholar, Connecticut College

2024-present

- Selected via competitive application process for integrative program

Founders Scholarship, Connecticut College

2023-present

- Top merit scholarship awarded by the college

Washington State Honors Award

2022

- For outstanding academic achievement, ranking in top 10 percent of high school students

INTERESTS: Digital Photography, Ultimate Frisbee, Soccer, Nature, Wellness, Creative Writing
